

Bib Faucets

Model 6248 Series

Model 6248

Self-closing, plain end lead free brass bib faucet assembly with polished chrome plated finish. Assembly includes extension nipple, locknuts, and tee. This assembly was used on Model 3300 pedestal drinking fountain. 1/2" NPT(F) inlet. This bib faucet exceeds the standards of the Safe Drinking Water Act and Lead Contamination Control Act. All components in the waterway contain less than 0.1% lead. This faucet is discontinued and has been replaced by Model 6250LF.

Model 6248.60

Self-closing, plain end bib faucet assembly with polished chrome plated finish. Assembly includes stainless steel mounting plate, mounting screws, extension nipple, and tee. This assembly was used on Models 3060, 3121, 3150 and 3177 concrete pedestal fountains that come equipped with a second access plate opening. 1/2" NPT(F) inlet. This bib faucet exceeds the standards of the Safe Drinking Water Act and Lead Contamination Control Act. All components in the waterway contain less than 0.1% lead. This faucet is discontinued and has been replaced by Model 6250.60LF.

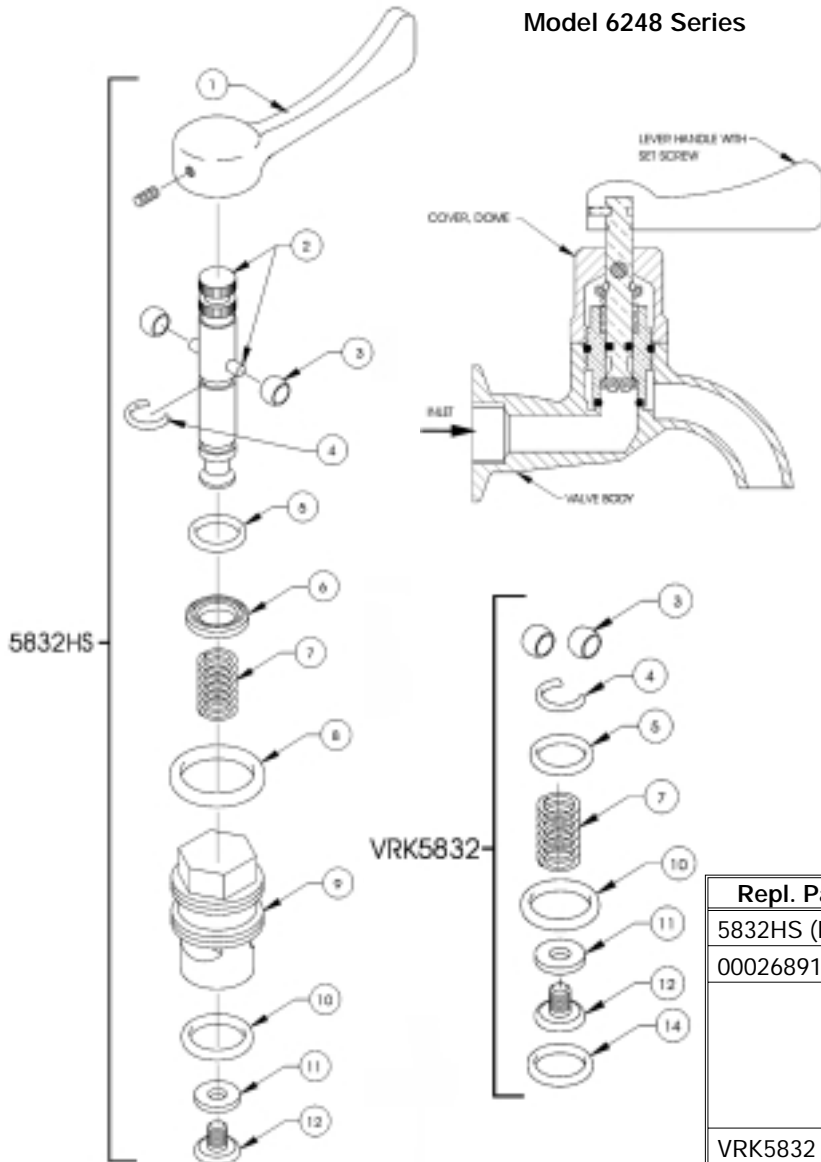

Model 6248.76

Self-closing, plain end bib faucet assembly with polished chrome plated finish. Assembly includes extended supply shank, which facilitates installations for walls with thickness up to 3", lock nut, and tee. This assembly was used on pedestal drinking fountains with walls up to 3" thick. 1/2" NPT(F) inlet. This bib faucet exceeds the standards of the Safe Drinking Water Act and Lead Contamination Control Act. All components in the waterway contain less than 0.1% lead. This faucet has been discontinued.
